UC-B

UNITÀ CONDENSATRICI A BORDO

- INCLUSO:
- Unità condensatrice ermetica
  - Funzione Doppia temperatura
  - Vaschetta asciuga condensa
- ESCLUSO:
- Fianchi
  - Pannello frontale
  - Griglia frontale inferiore

PLUG-IN

- INCLUDED:
- Hermetic condensing unit
  - Dual Temperature function
  - Self evaporating tray
- EXCLUDED:
- Sides
  - Front panel
  - Bottom front grille

UC-R

UNITÀ CONDENSATRICI REMOTE

- INCLUSO:
- Unità condensatrice Semi-Ermetica Tropicalizzata
  - Funzione Doppia temperatura
- ESCLUSO:
- Fianchi
  - Pannello frontale
  - Griglia frontale inferiore
  - Tubazioni
  - Installazione unità condensatrice

REMOTE CONDENSING UNITS

- INCLUDED:
- Tropicalised Semi-Hermetic condensing Unit
  - Dual Temperature function
- EXCLUDED:
- Sides
  - Front panel
  - Bottom front grille
  - Pipes
  - Condensing units installation

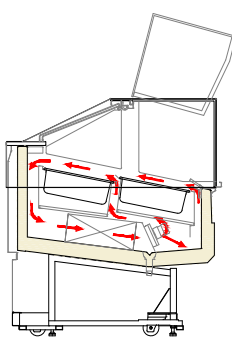

Ventilazione Ventilation

Plus

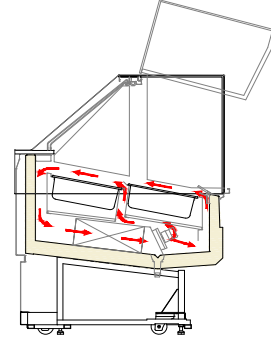

Singolo evaporatore con doppia mandata d'aria a flusso anteriore.  
Single evaporator with double front air out flow.

UC-B

UNITÀ CONDENSATRICI A BORDO

- INCLUSO:
- Unità condensatrice ermetica
  - Funzione Doppia temperatura
  - Vaschetta asciuga condensa
- ESCLUSO:
- Fianchi
  - Pannello frontale
  - Griglia frontale inferiore

PLUG-IN

- INCLUDED:
- Hermetic condensing unit
  - Dual Temperature function
  - Self evaporating tray
- EXCLUDED:
- Sides
  - Front panel
  - Bottom front grille

UC-R

UNITÀ CONDENSATRICI REMOTE

- INCLUSO:
- Unità condensatrice Semi-Ermetica Tropicalizzata
  - Funzione Doppia temperatura
- ESCLUSO:
- Fianchi
  - Pannello frontale
  - Griglia frontale inferiore
  - Tubazioni
  - Installazione unità condensatrice

REMOTE CONDENSING UNITS

- INCLUDED:
- Tropicalised Semi-Hermetic condensing Unit
  - Dual Temperature function
- EXCLUDED:
- Sides
  - Front panel
  - Bottom front grille
  - Pipes
  - Condensing units installation

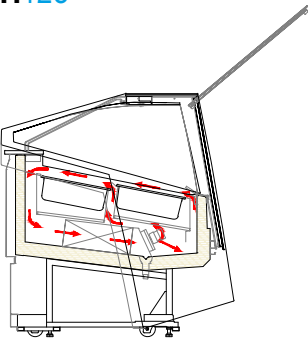

Ventilazione Ventilation

Plus

Singolo evaporatore con doppia mandata d'aria a flusso anteriore.  
Single evaporator with double front air out flow.

UC-B

UNITÀ CONDENSATRICI A BORDO

- INCLUSO:
- Unità condensatrice ermetica
  - Funzione Doppia temperatura
  - Vaschetta asciuga condensa
- ESCLUSO:
- Fianchi
  - Pannello frontale
  - Griglia frontale inferiore

PLUG-IN

- INCLUDED:
- Hermetic condensing unit
  - Dual Temperature function
  - Self evaporating tray
- EXCLUDED:
- Sides
  - Front panel
  - Bottom front grille

UC-R

UNITÀ CONDENSATRICI REMOTE

- INCLUSO:
- Unità condensatrice Semi-Ermetica Tropicalizzata
  - Funzione Doppia temperatura
- ESCLUSO:
- Fianchi
  - Pannello frontale
  - Griglia frontale inferiore
  - Tubazioni
  - Installazione unità condensatrice

REMOTE CONDENSING UNITS

- INCLUDED:
- Tropicalised Semi-Hermetic condensing Unit
  - Dual Temperature function
- EXCLUDED:
- Sides
  - Front panel
  - Bottom front grille
  - Pipes
  - Condensing units installation

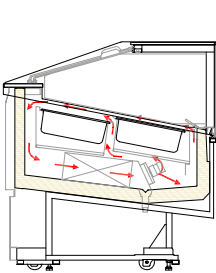

Ventilazione Ventilation

Plus

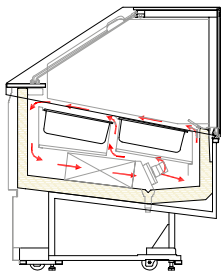

Singolo evaporatore con doppia mandata d'aria a flusso anteriore.  
Single evaporator with double front air out flow.

UC-B

UNITÀ CONDENSATRICI A BORDO

- INCLUSO:
- Unità condensatrice ermetica
  - Funzione Doppia temperatura
  - Vaschetta asciuga condensa
- ESCLUSO:
- Fianchi
  - Pannello frontale
  - Griglia frontale inferiore

PLUG-IN

- INCLUDED:
- Hermetic condensing unit
  - Dual Temperature function
  - Self evaporating tray
- EXCLUDED:
- Sides
  - Front panel
  - Bottom front grille

UC-R

UNITÀ CONDENSATRICI REMOTE

- INCLUSO:
- Unità condensatrice Semi-Ermetica Tropicalizzata
  - Funzione Doppia temperatura
- ESCLUSO:
- Fianchi
  - Pannello frontale
  - Griglia frontale inferiore
  - Tubazioni
  - Installazione unità condensatrice

REMOTE CONDENSING UNITS

- INCLUDED:
- Tropicalised Semi-Hermetic condensing Unit
  - Dual Temperature function
- EXCLUDED:
- Sides
  - Front panel
  - Bottom front grille
  - Pipes
  - Condensing units installation

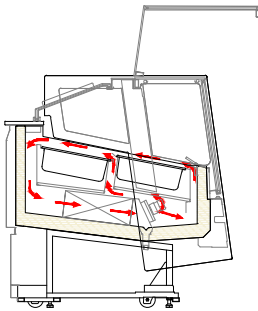

Ventilazione Ventilation

Plus

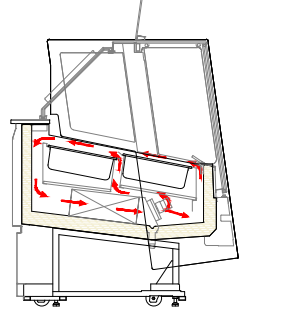

Singolo evaporatore con doppia mandata d'aria a flusso anteriore.  
Single evaporator with double front air out flow.

UC-B

UNITÀ CONDENSATRICI A BORDO

- INCLUSO:
- Unità condensatrice ermetica
  - Funzione Doppia temperatura
  - Vaschetta asciuga condensa
- ESCLUSO:
- Fianchi
  - Pannello frontale
  - Griglia frontale inferiore

PLUG-IN

- INCLUDED:
- Hermetic condensing unit
  - Dual Temperature function
  - Self evaporating tray
- EXCLUDED:
- Sides
  - Front panel
  - Bottom front grille

UC-R

UNITÀ CONDENSATRICI REMOTE

- INCLUSO:
- Unità condensatrice Semi-Ermetica Tropicalizzata
  - Funzione Doppia temperatura
- ESCLUSO:
- Fianchi
  - Pannello frontale
  - Griglia frontale inferiore
  - Tubazioni
  - Installazione unità condensatrice

REMOTE CONDENSING UNITS

- INCLUDED:
- Tropicalised Semi-Hermetic condensing Unit
  - Dual Temperature function
- EXCLUDED:
- Sides
  - Front panel
  - Bottom front grille
  - Pipes
  - Condensing units installation

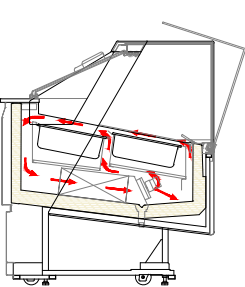

Ventilazione Ventilation

Plus

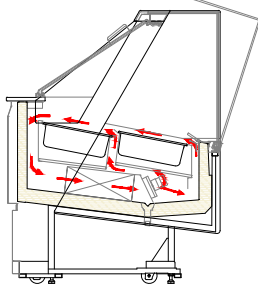

Singolo evaporatore con doppia mandata d'aria a flusso anteriore.  
Single evaporator with double front air out flow.

# Energy Label

## European Regulation Energy Label 2019/2018

Dal 1° Marzo 2021 è entrato in vigore, per le attrezzature professionali, il Regolamento Europeo Energy Label 2019/2018. Lo scopo dell'Unione Europea è quello di ridurre l'impatto ambientale in termini di consumi energetici favorendo e promuovendo la vendita di prodotti più efficienti e sostenibili. Non sarà quindi possibile vendere all'interno dell'Unione Europea prodotti non conformi.

### Le Classi energetiche

Le classi di efficienza energetica si basano sull'Indice di Efficienza Energetica EEL (Energy Efficiency Index).

Quanto è più basso questo valore, maggiore sarà l'efficienza energetica. Le etichette energetiche classificano i prodotti in base al loro consumo energetico su una scala da A (la più efficiente) a G.

### Verso il 2030

La classificazione europea è sfidante, per questo nei primi anni le classi A e B saranno raggiunte da pochissimi prodotti. (attualmente la maggior parte dei prodotti sarà in classe E o F) in quanto rappresentano la sfida dell'Europa di avere oltre il 60% dei prodotti in classe A e B entro il 2030.

### In concreto

L'etichetta fornisce una serie di informazioni immediate in termini di Classe Energetica, Volumi, consumo annuo etc. Include inoltre un QR code che rimanda alla scheda tecnica contenente tutte le informazioni di prodotto obbligatorie raccolte nel database Europeo EPREL. Anche la documentazione commerciale e il sito web devono riportare le informazioni normative obbligatorie dei prodotti.

As of March 1, 2021, the European Energy Label Regulation 2019/2018 came into force for professional equipment. The purpose of the European Union is to reduce the environmental impact in terms of energy consumption by encouraging and promoting the sale of more efficient and sustainable products. Therefore, it will not be possible to sell non-compliant products within the European Union.

### Energy Classes

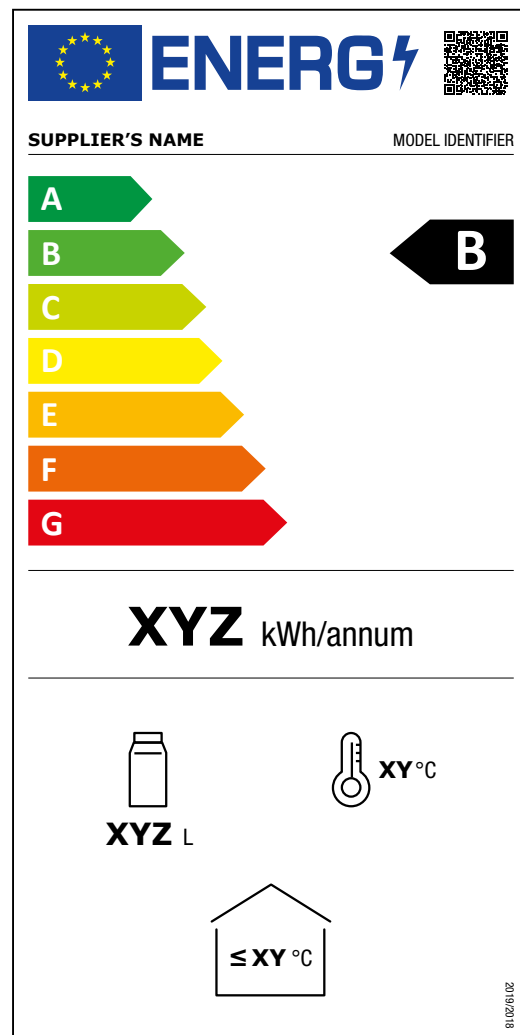

Energy efficiency classes are based on the Energy Efficiency Index (EEL). The lower this value, the higher the energy efficiency. Energy labels rank products based on their energy consumption on a scale of A (most efficient) to G.

### Road to 2030

The European classification is challenging, so in the first few years Class A and B will be achieved by very few products. (currently most products will be in class E or F) as they represent Europe's challenge to have over 60% of products in class A and B by 2030.

### In concrete terms

The label provides a series of immediate information in terms of Energy Class, Volumes, annual consumption, etc.. It also includes a QR code that links to the technical data sheet containing all mandatory product information collected in the European database EPREL. Sales literature and the company's website must also include mandatory product information.

## Condizioni generali di vendita

**1. Conclusione del Contratto.** Il contratto di vendita si conclude con la comunicazione da parte del Compratore al Venditore dell'accettazione scritta del preventivo sopra riportato. Nel caso in cui la ISA S.p.a. sia tenuta all'elaborazione di un progetto esecutivo della fornitura, il contratto di vendita si conclude con la comunicazione da parte del Compratore al Venditore dell'accettazione scritta del disegno esecutivo e del preventivo ad esso associato. Il Compratore autorizza la registrazione del contratto a proprie spese.

**2. Recesso dal contratto e modifica dell'ordine.** Il Compratore, entro due settimane dalla conferma d'ordine , può recedere unilateralmente dal contratto di vendita. In tal caso lo stesso è tenuto a versare al Venditore a titolo di penale un importo pari ad 1/3 del prezzo pattuito ed a risarcire il maggior danno eventualmente da quest'ultimo subito. Il Compratore entro tre giorni lavorativi dalla conclusione del contratto di vendita può richiedere per iscritto la modifica del relativo oggetto. In tal caso entro e non oltre dieci giorni dalla trasmissione da parte di ISA S.p.a. di un nuovo preventivo dovrà comunicare al venditore l'accettazione scritta di quest'ultimo. Il nuovo preventivo conterrà le modifiche richieste con il prezzo aggiornato e terrà conto anche del rimborso dei costi di quanto eventualmente già da ISA S.p.a. prodotto e/o acquistato da altro fornitore in virtù del precedente ordine. In difetto di comunicazione dell'accettazione del nuovo preventivo entro il termine suddetto resterà valido ed efficace il contratto originario. Resta fermo che la modifica concordata dell'oggetto del contratto farà decorrere un nuovo termine non tassativo, né essenziale per la consegna della merce.

**3. Disegno esecutivo e render.** Ove la ISA S.p.a. sia tenuta all'elaborazione di un progetto esecutivo della fornitura o un render, gli stessi si intendono inclusi nel prezzo di vendita pattuito. I disegni esecutivi ed i renders successivi al primo, non si intendono invece inclusi nel prezzo di vendita e verranno addebitati al Compratore in fattura.

**4. Consegna della merce.** La consegna della merce si intende sempre franco fabbrica ISA S.p.a. anche quando venga pattuito trasporto e montaggio a carico di quest'ultima. La merce verrà consegnata, per quanto possibile, entro il termine non tassativo, né essenziale indicato nel preventivo sopra riportato, fatti sempre salvi i casi di impedimenti improvvisi come casi di forza maggiore, ritardi nelle consegne da parte di fornitori, ritardi del Compratore nel trasmettere dati, nell'eseguire opere a proprio carico o pagamenti etc.

La ISA S.p.a. si riserva di sospendere la consegna della merce qualora abbia fondati motivi per ritenere che il Compratore sia divenuto insolvente ovvero qualora questi non abbia comunicato fatti o situazioni comunque pregiudizievoli per il Venditore.

Il Compratore, cui la merce sia messa a disposizione dal Venditore per iscritto e che non provveda al ritiro della stessa entro due settimane, sarà tenuto a pagare in aggiunta ad ISA S.p.a. una penale pari al 10% del valore della fornitura. Il mancato ritiro della merce entro quattro settimane dalla relativa messa a disposizione per iscritto da parte del Venditore comporterà invece la facoltà per il Venditore di ritenere risolto il contratto con obbligo per il Compratore di versare ad ISA S.p.a. a titolo di penale un importo pari ad 1/3 del prezzo pattuito e di risarcire il maggior danno subito; in tal caso l'intera fornitura resterà in proprietà di ISA S.p.a.

**5. Imballaggio, trasporto e montaggio.** Il Venditore, salva diversa richiesta scritta del Compratore al momento dell'ordine, provvederà ad imballare la merce secondo il metodo standard in funzione della tipologia dei beni e cioè alternativamente con cartone e pallet, con gabbia in legno o con film protettivo. Il trasporto e lo scarico della merce, anche se effettuati con mezzi predisposti dal Venditore sono sempre, in tutte le loro fasi, a rischio del Compratore. Il Compratore dovrà provvedere in tempo utile all'approntamento di tutte le opere murarie, elettriche idrauliche, di allacciamenti, di manovalanza e di ponteggi, occorrenti per l'installazione sollecita della fornitura. Sono sempre a carico del Compratore le spese di vitto e alloggio dei montatori eventualmente inviati dal Venditore. Il Compratore solleva espressamente il Venditore da ogni responsabilità, relativa ad incidenti, di qualsiasi genere, che si verificassero durante le operazioni di scarico e montaggio.

**6. Garanzia.** Solo nei confronti del Compratore che denunci per iscritto la presenza di problemi tecnici relativi all'attrezzatura compravenduta entro giorni 8 dalla relativa scoperta e che abbia, sino a quella data, esattamente adempiuto a tutte le obbligazioni contrattuali ed a tutte le obbligazioni contrattuali, il Venditore si obbliga, per il periodo di 12 mesi dalla consegna, a svolgere un sopralluogo nel termine di giorni 15 dal ricevimento della denuncia, senza che ciò comporti riconoscimento, anche implicito, di ogni e qualsiasi responsabilità per inadempimento contrattuale. Qualora all'esito del sopralluogo il Venditore riscontri a proprio insindacabile giudizio l'esistenza di un vizio o difetto di fabbricazione si a scelta a ripararle e/o a sostituirle.

Non rientrano nella garanzia: il buon funzionamento dei beni compravenduti, le parti elettriche, le rotture provocate da cause estrinseche, le difettosità imputabili al non corretto posizionamento o allacciamento delle attrezzature alla rete elettrica, al non corretto utilizzo o alla omessa o cattiva manutenzione delle stesse e alla normale usura dei relativi componenti (come ad esempio la rottura dei compressori e del sistema di illuminazione se non dovuta a difetti di fabbricazione). Non rientrano inoltre nella garanzia le chiamate per l'istallazione, le istruzioni tecniche, le regolazioni, la pulizia dei condensatori, le spese di viaggio e soggiorno dei Tecnici autorizzati dal Venditore.

Tutto quanto non ricompreso nella garanzia, resta ad esclusivo carico del Compratore che autorizza fin d'ora l'emissione di tratta per i relativi importi dovuti, con scadenza a 30 gg. al sopralluogo e/o dall'intervento tecnico. Il riscontro da parte di tecnici autorizzati dal Venditore: del posizionamento o dell'installazione dell'attrezzatura in modo non conforme a quanto previsto dal manuale di istruzione ed uso, di componenti non originali o manomessi, di riparazioni non autorizzate, di modifiche all'apparecchiatura ovvero di uso improprio della stessa produrrà l'immediata decadenza del Compratore dalla garanzia con conseguente automatico addebito degli importi dovuti per il sopralluogo e/o l'intervento tecnico secondo le modalità descritte nel periodo che precede.

In ogni caso il Compratore rinuncia espressamente alla richiesta di indennizzi per danni, diretti o indiretti, a qualsiasi titolo.

**6.1 PROTEZIONE ESTESA IAT** - 24 mesi (estensione garanzia su componenti)

Per la validità della Protezione Estesa IAT - PE24 è necessario che la connessione IAT (Isa Adaptive Technology) sia attiva fin dal momento della installazione dell'apparecchiatura.

In aggiunta alle condizioni di garanzia standard Isa, con la Protezione Estesa IAT - 24 mesi (PE24) nei 2 anni successivi alla data di scadenza della garanzia standard, Isa garantisce la fornitura gratuita (in porto assegnato) delle parti difettose per fabbricazione o montaggio. Restano invece a carico del cliente i costi dell'intervento di riparazione effettuato dal centro di assistenza tecnica autorizzato.

Il pezzo difettoso dovrà essere riconsegnato ad Isa attraverso il centro di assistenza autorizzato.

Come già previsto dalle condizioni standard di garanzia Isa, non rientrano nella PE24 i difetti imputabili a:

- Non corretto utilizzo della apparecchiatura
- Non rispetto delle istruzioni di uso e manutenzione della apparecchiatura (esempio pulizia periodica del condensatore)
- Normale usura di componenti (lampade, led ecc...) se non dovute a difetti di fabbricazione

Il riscontro da parte di tecnici autorizzati di componenti manomessi o di riparazioni effettuati da centri di assistenza non autorizzati, produrrà la decadenza della Protezione Estesa

**7. Pagamenti.** Il pagamento del prezzo dovrà avvenire presso la sede di ISA S.p.a., prima della consegna della merce ovvero nel termine indicato nel preventivo che precede. Nessuna contestazione a qualsiasi titolo autorizza il Compratore a sospendere i pagamenti alle scadenze pattuite, come nessun accordo verbale potrà essere invocato a modifica di quanto pattuito per iscritto. Per ogni ritardo di pagamento il Compratore sarà tenuto a corrispondere al Venditore gli interessi moratori ex DLGS 231/2002. Qualora tra la data del contratto e la data di consegna della fornitura, le materie prime o la mano d'opera subiscano un aumento superiore al 5%, i prezzi di contratto saranno soggetti automaticamente a revisione.

**8. Riservato dominio:** In caso di pagamento rateale la vendita si intende conclusa con patto di riservato dominio. Il mancato pagamento anche parziale di una sola rata o di più rate che superino l'ottava parte del prezzo totale, il Venditore potrà risolvere il contratto ed il Compratore decadrà dal beneficio del termine. In caso di risoluzione, fermo l'obbligo dell'acquirente di restituire i beni, le rate riscosse dal Venditore verranno dallo stesso acquisite a titolo di indennità e di risarcimento del danno che viene predeterminato in misura pari al 10% del prezzo pattuito per ogni 6 mesi successivi alla consegna.

**9. Marchio.** A termine di legge, il Compratore si impegna a non asportare, né manomettere il marchio registrato "ISA".

**10. Legge applicabile, giurisdizione e foro competente.** Ogni controversia relativa al presente contratto ovvero allo stesso connessa e/o collegata sarà esclusivamente definita secondo la Legge Italiana, rimessa alla giurisdizione del Giudice Italiano ed alla competenza del Tribunale di Perugia.

## General sale terms

**1. Conclusion of the contract.** The sales contract is deemed concluded upon the Buyer's written acceptance to the Seller of the above quotation. Should ISA S.p.A. be required to prepare an executive project for the supply, the sales contract is deemed concluded upon the Buyer's written acceptance to the Seller of the executive project and its related quotation. The Buyer hereby authorises registration of the contract at its own expense.

**2. Withdrawal from the contract and order modification.** The Buyer may unilaterally withdraw from the sales contract within two weeks of the order confirmation. In such case, the Buyer is required to pay the Seller, by way of penalty, an amount equal to 1/3 of the agreed price and compensate the Seller for any greater damage that they may incur. The Buyer may request in writing a modification of the subject matter of the sales contract within three working days of its conclusion. In such case, the Buyer must communicate its acceptance in writing, no later than ten days from ISA S.p.A.'s submission of a revised quotation. The new quotation shall contain the requested amendments with the updated price and shall also take into account reimbursement of costs for any items already produced by ISA S.p.A. and/or purchased from another supplier, in compliance with the previous order. If acceptance of the new quotation is not communicated within the aforementioned deadline, the original contract shall remain valid and effective. It is understood that any agreed modification to the subject matter of the contract will give rise to a new delivery term, neither mandatory nor essential for the delivery of the goods.

**3. Executive project and render.** If ISA S.p.A. is required to prepare an executive project for the supply and/or a render, these are deemed included in the agreed sales price. Any executive project and render subsequent to the first one shall not be deemed included in the sales price and shall be invoiced to the Buyer.

**4. Delivery of the goods.** Delivery of the goods shall always be Ex-works ISA S.p.A., even where transport and installation at the Seller's expense have been agreed upon. The goods shall be delivered, as far as possible, within the non-binding and non-essential timeframe specified in the above quotation, without prejudice to unforeseen circumstances such as force majeure, delays in deliveries by suppliers, delays by the Buyer in providing data, performing work at one's own expense or making payments, etc.

ISA S.p.A. reserves the right to suspend delivery of the goods if it has reasonable grounds to believe that the Buyer has become insolvent or has failed to report any fact or situation that may be detrimental to the Seller.

If the Buyer, after having been notified in writing that the goods are available, fails to collect them within two weeks, they will be required to pay ISA S.p.A. an additional penalty equal to 10% of the value of the supply. Failure to collect the goods within four weeks of the Seller's written notification of availability shall instead entitle the Seller to deem the contract terminated; the Buyer shall be obliged to pay ISA S.p.A., by way of penalty, an amount equal to 1/3 of the agreed price and to compensate for any greater damage; in this case, the entire supply shall remain the property of ISA S.p.A.

**5. Packaging, transport and installation.** Unless otherwise requested in writing by the Buyer at the time of the order, the Seller will package the goods following the standard method appropriate to the type of goods, i.e., either with cardboard and pallets, a wooden crate or with protective film. Transport and unloading of the goods, even if carried out using vehicles provided by the Seller, shall always be at the Buyer's risk, at all stages. The Buyer must in good time ensure the completion of all masonry, electrical and plumbing works, connections, labour and scaffolding required for the prompt installation of the goods supplied. All costs for board and lodging of any installers sent by the Seller shall always be borne by the Buyer. The Buyer expressly releases the Seller from any liability relating to accidents of any kind that may occur during unloading and installation.

**6. Warranty.** The Seller undertakes, only with respect to the Buyer who reports in writing any technical issues relating to the purchased equipment within 8 days of their discovery and who has, up to that date, fulfilled all contractual obligations, to conduct, for a period of 12 months from delivery, an inspection within 15 days of receipt of such report; this shall not imply any acknowledgement, express or implied, of any liability for a breach of contract. If the Seller finds during the inspection, at its sole discretion, a defect or manufacturing fault, defective items can be repaired and/or replaced.

The warranty does not cover the following: proper functioning of the purchased goods, electrical components, breakages caused by external causes, defects attributable to incorrect positioning or connection of the equipment to the electricity grid, improper use, lack of or poor maintenance, and normal wear and tear of components (such as compressor or lighting system failures not due to manufacturing defects). The warranty also does not cover calls for installation, technical instructions, adjustments, condenser cleaning, as well as travel and accommodation expenses for technicians authorised by the Seller.

Anything not covered by the warranty shall be borne exclusively by the Buyer, who hereby authorises the issuance of a draft for the amounts due, payable within 30 days after the inspection and/or technical intervention.

Should technicians authorised by the Seller find that the equipment has been positioned or installed not in accordance with the instruction and user manual, or find non-original or tampered components, unauthorised repairs, modifications to the equipment, or any other improper use of the equipment, the Buyer shall void the warranty with immediate effect, and the amounts due for the inspection and/or technical intervention shall be automatically charged to the Buyer, in compliance with the aforementioned terms.

In any case, the Buyer expressly waives any claim to compensation for direct or indirect damages of any kind.

**6.1 IAT EXTENDED PROTECTION** - 24 months (extension of warranty on components)

For IAT Extended Protection – PE24 to be valid, the IAT (Isa Adaptive Technology) connection must be active from the time the equipment is installed.

In addition to Isa's standard warranty terms, with IAT Extended Protection – 24 months (PE24), for the two years following the expiry date of the standard warranty, Isa guarantees the free supply (carriage forward) of faulty parts due to manufacturing or assembly defects. The cost of any repair work carried out by an authorised service centre shall, however, be borne by the client.

The defective part must be returned to Isa via an authorised service centre.

As already provided for under Isa's standard warranty terms, PE24 does not cover defects attributable to:

- Improper use of the equipment
- Failure to follow the instructions for use and maintenance of the equipment (for example, regular cleaning of the condenser)
- Normal wear and tear of parts (lamps, LEDs, etc.) unless due to manufacturing defects

Any evidence, identified by authorised technicians, of tampering with parts or of repairs carried out by unauthorised service centres shall result in the forfeiture of the Extended Protection

**7. Payments.** Payment must be made at ISA S.p.A.'s registered office prior to delivery of the goods or within the deadline specified in the aforementioned quotation. No dispute, on any ground, shall entitle the Buyer to suspend payments on the agreed due dates, nor shall any verbal agreement be invoked to modify the terms agreed upon in writing. For any delay in payment, the Buyer shall be required to pay the Seller default interest, in compliance with Legislative Decree 231/2002. If the cost of raw materials or labour increase by more than 5% between the date of the contract and the delivery date of the supply, the contract prices shall be automatically adjusted accordingly.

**8. Retention of ownership:** In case of payment in instalments, the sale shall be deemed concluded under retention of title. Failure to pay, even partially, a single instalment or multiple instalments exceeding one-eighth of the total price shall entitle the Seller to terminate the contract, and the Buyer will forfeit the benefit of the term. In the event of termination, without prejudice to the Buyer's obligation to return the goods, the instalments collected by the Seller shall be retained as compensation and damages, which will be pre-determined at 10% of the agreed price for every 6 months following delivery.

**9. Trademark.** In compliance with the law, the Buyer undertakes not to remove or tamper with the "ISA" registered trademark.

**10. Applicable law, jurisdiction and competent court.** Any dispute relating to or connected with this contract shall be exclusively governed by Italian law, subject to the Italian Jurisdiction and the competent Court of Perugia.

## Condizioni generali di garanzia

Il venditore garantisce le proprie apparecchiature per la durata di 12 (dodici) mesi dalla data della fattura. La garanzia comprende la riparazione e/o la sostituzione delle parti eventualmente difettose per fabbricazione o montaggio. Non copre danni causati da uso improprio, negligenza, manutenzione inadeguata, modifiche non autorizzate o incidenti.

Esclusioni (non rientrano nella garanzia):

- Danni causati da trasporto o movimentazione non corretta
- Danni causati da installazione non conforme alle istruzioni del produttore o dal non corretto utilizzo dell'apparecchiatura
- Danni derivanti da sovratensioni elettriche o fulmini
- Parti soggette a normale usura (es. compressori, lampade led, guarnizioni, etc.) se non dovute a difetti di fabbricazione
- Danni causati da utilizzo di detergenti o prodotti chimici non approvati
- Danni derivanti da condizioni ambientali estreme (es. temperature troppo alte o basse, umidità eccessiva)
- Interventi di manutenzione ordinaria
- Le chiamate per l'installazione, le istruzioni tecniche, le regolazioni, la pulizia del condensatore.

Procedura di attivazione della garanzia: per richiedere un intervento in garanzia, il cliente deve inviare una comunicazione scritta a isaservice@isaitaly.com, indicando:

- numero di matricola

- descrizione dettagliata del problema riscontrato

- eventuali allegati per velocizzare la risoluzione.

L'eventuale sostituzione del prodotto/componente, ad insindacabile giudizio del venditore, non comporta il prolungamento o il rinnovo delle condizioni di garanzia.

Le spedizioni relative a componenti in garanzia saranno effettuate esclusivamente in porto assegnato.

Il riscontro da parte di tecnici autorizzati dal produttore di componenti manomessi, di riparazioni da parte di Centri di Assistenza non autorizzati, di uso improprio dell'apparecchiatura, produrrà la decadenza immediata della garanzia stessa.

Eventuali danni dell'apparecchiatura rilevati al momento della consegna ed imputabili al trasporto, dovranno essere annotati sullo stesso documento di accompagnamento per il risarcimento dei danni da parte del vettore e comunicati al venditore entro 3gg dalla consegna allegando fotografie dell'accaduto.

Il produttore non risponde in alcun caso di danni al prodotto conservato causati da avaria dell'apparecchiatura. È esclusa qualsiasi diversa ed ulteriore responsabilità del venditore, e così anche per danni diretti e/o indiretti, incidentali o consequenziali derivanti dall'uso dell'attrezzatura.

**PROTEZIONE ESTESA IAT** - 24 mesi (estensione garanzia su componenti)

Per la validità della Protezione Estesa IAT - PE24 è necessario che la connessione IAT (Isa Adaptive Technology) sia attiva fin dal momento della installazione dell'apparecchiatura.

In aggiunta alle condizioni di garanzia standard Isa, con la Protezione Estesa IAT - 24 mesi (PE24) nei 2 anni successivi alla data di scadenza della garanzia standard, Isa garantisce la fornitura gratuita (in porto assegnato) delle parti difettose per fabbricazione o montaggio. Restano invece a carico del cliente i costi dell'intervento di riparazione effettuato dal centro di assistenza tecnica autorizzato.

Il pezzo difettoso dovrà essere riconsegnato ad Isa attraverso il centro di assistenza autorizzato.

Come già previsto dalle condizioni standard di garanzia Isa, non rientrano nella PE24 i difetti imputabili a:

- Non corretto utilizzo della apparecchiatura
- Non rispetto delle istruzioni di uso e manutenzione della apparecchiatura (esempio pulizia periodica del condensatore)
- Normale usura di componenti (lampade, led ecc...) se non dovute a difetti di fabbricazione

Il riscontro da parte di tecnici autorizzati di componenti manomessi o di riparazioni effettuati da centri di assistenza non autorizzati, produrrà la decadenza della Protezione Estesa.

## Warranty terms and conditions

The vendor guarantees its equipment for the duration of 12 (twelve) months from the date of invoice.

The warranty includes repair and/or replacement of parts that may be defective due to manufacture or assembly. It does not cover damage caused by misuse, negligence, improper maintenance, unauthorized modifications or accidents.

Exclusions (not covered by the warranty):

- Damage caused by improper transportation or handling
  - Damage caused by installation not in accordance with the manufacturer's instructions or improper use of the equipment
  - Damage caused by electrical surges or lightning strikes
  - Parts subject to normal wear and tear (e.g., compressors, led lamps, gaskets, etc.) if not due to manufacturing defects
  - Damage resulting from the use of unapproved cleaners or chemicals
  - Damage resulting from extreme environmental conditions (e.g., excessively high or low temperatures, excessive humidity)
  - Routine maintenance work
  - Calls for installation, technical instructions, adjustments, condenser cleaning.
- Warranty activation procedure: to request warranty service, the customer must send written notice to isaservice@isaitaly.com, indicating:
- serial number
  - detailed description of the problem encountered
  - any attachments to expedite resolution.

Any replacement of the product/component, at the sole discretion of the seller, will not result in the extension or renewal of the warranty conditions.

Shipments related to warranty components will be made freight collect only.

Findings by manufacturer-authorized technicians of tampered components, repairs by unauthorized Service Centers, or misuse of the equipment will result in immediate forfeiture of the warranty.

Any damage to the equipment detected at the time of delivery and attributable to transport, must be noted on the same accompanying document for compensation of damages by the carrier and reported to the seller within 3 days of delivery by attaching photographs of the incident.

The manufacturer is not liable in any case for damage to the stored product caused by equipment failure.

Any other and further liability of the seller is excluded, and so also for direct and/or indirect, incidental or consequential damages resulting from the use of the equipment.

**IAT EXTENDED PROTECTION** - 24 months (extension of warranty on components)

For IAT Extended Protection – PE24 to be valid, the IAT (Isa Adaptive Technology) connection must be active from the time the equipment is installed.

In addition to Isa's standard warranty terms, with IAT Extended Protection – 24 months (PE24), for the two years following the expiry date of the standard warranty, Isa guarantees the free supply (carriage forward) of faulty parts due to manufacturing or assembly defects. The cost of any repair work carried out by an authorised service centre shall, however, be borne by the client.

The defective part must be returned to Isa via an authorised service centre.

As already provided for under Isa's standard warranty terms, PE24 does not cover defects attributable to:

- Improper use of the equipment
- Failure to follow the instructions for use and maintenance of the equipment (for example, regular cleaning of the condenser)
- Normal wear and tear of parts (lamps, LEDs, etc.) unless due to manufacturing defects

Any evidence, identified by authorised technicians, of tampering with parts or of repairs carried out by unauthorised service centres shall result in the forfeiture of the Extended Protection.

**La ISA S.p.A. nell'ambito del continuo miglioramento del prodotto, si riserva il diritto di modificare in qualsiasi momento, senza preavviso, le caratteristiche tecniche ed estetiche dei propri modelli.**

In the interest of continual product improvements, ISA S.p.A. reserves the right to make changes in technical specifications and accessories at any moment and without prior notice.
